Area Resurveyed 153212 Acres

A history of earlier surveys is contained in the field

This plat represents a dependent resurvey of a portion of the section boundaries, designed to restore the corners in test iver original locations according to the best weight two original continues according to the auditorious sections of the section section according auditorious sections according to the best auditorious according best according to the section of the section section according to lands outcode from the original survey in T. 1 S., R. 4 N., Mchingan McFuldian, Mtchigan.

Except the new subdivisions as shown hereon, the lottings and areas are as shown on the plat approved January 14, 1826.

These surveys were executed by Louis D. Gilbert and Francis D. Eickbush, Jr., Cadastral Surveyors, from May 12 to June 25, 1971, according to Special Instructions dated May 6, 1971 for Group No. 74, Michigan.

The position of the original meander courses of Bell, Clark and Wise Lakes is shown by an irregular line with numbered angle points. These lines, as originally surveyed, were grossly in error and have been established as fixed boundaries on this plat. The directions and lengths of the several courses have been adjusted to the record of the original survey.

> UNITED STATES DEPARTMENT OF THE INTERIOR BUREAU OF LAND MANAGEMENT Washington, D.C. August 28, 1972

This plat is strictly conformable to the approved field notes, and the survey, having been correctly executed in accordance with the requirements of law and the regulations of this Bureau, is hereby accepted.
