Pursuant to a contract with our Substitutes from General Office, we have compared the original plat with the copy of the same, and find the same to be correct in all particulars. We have advanced our plat with the above mentioned findings and all hereby certify that it has been marked and bounded both natural and artificial as represented on said plat and described in the field notes made there of and attached with this plat into the General Office, bearing this 3 day of May 1868.
