

**1248.16 STREET TREES.**

(a) Trees shall be provided by the proprietor in the margins of both sides of all streets, and shall be placed at the minimum rate of two per single-family residential lot or at a maximum distance apart of sixty feet. Trees may also be required to be installed according to the same distances in pedestrian ways. Trees to be installed in the street margins shall be of the large deciduous type, such as, oak, hard maple, ash, hackberry, and sycamore. All large deciduous trees shall have a minimum caliper of two inches.

(b) The following trees are not permitted in the street margins, pedestrian ways, or any other landscaped area required by these Subdivision Regulations: box elder, soft maple, American elm, poplar, ailanthus (Tree of Heaven), and willow.

(c) All trees shall be protected from damage by wind and other elements during the first full year after planting.

(Ord. 1980-2. Passed 5-12-80.)
