AND

DESCRIPTION IN DETAIL AS TO HOW CORNER WAS LOCATED AND IDENTIFIED OR RESTORED.

This corner was restored while making a survey of the Third Correction Line. Set corner 25 links east of the north 1/4 corner of Section 1, T30NR6W as prescribed by a survey of record by Robinson in 1909 which identified both the Hebdon 1/4 corner and this town corner. Unable to identify anything for evidence of the previous surveys -- but conclude this method to be most in agreement with the conditions existing in 1909. Checks very well for measurement and bearing north and west.

See map and minutes of survey for further information.
