I, Stephan J. Szyszkoski, in a field survey on 09/28/15 do hereby state
that under requirements of P.A. 74, Michigan P.A. of 1970, the corner points mentioned in lines 1 and 2
above were in conformance with regulations and rules therefore as required in the current manual of survey
instructions of the United States Department of the Interior, Bureau of Land Management or by a decree of
a Court of Law and /or that the corner points mentioned in lines 3, 4 and 5 above were in conformance with
the rules of the Michigan Board of Land Surveyors or by a Decree of a Court of Law; established,
re-established, monumented, recovered, found as expressed below:

NOTE: Not more than 2 corners, all in the same town and range, may be recorded
on this certificate.

A. Description of original monument and accessories and/or subsequent restoration:

(I12) Quarter corner common to Sections 34 and 35. 1846 - Established by S.W.Higgins, Deputy,
midway and on the Section line between Section corners 40.00 ch. North and South. Set post in
swamp. Y.Birch 12" N77°W 8 links, Spruce 9" N54°E 13 links. See additional information below.

B. Description of corner evidence found and/or method applied in restoring or reestablishing corner:

(I12) The original post and accessories were not recovered. Found and accepted a local corner
position well marked by blazed trees, a USFS location poster dating to 1954, and a 14" Cedar tree
with face blazes at right angles, 5.6' distant, dated to 1952, presumably the angle pointing to the
corner. The position is substantially at record distance from I11 (2646.42' M), leaving the 1/2
mile to I13 2.93 chains short of record (2446.76' M). Determined the position on the ground which
gave the best fit to the face blazes and markings and monumented that position. After monumenting
the position and completing my survey, I discovered a MEAD CORP. forester's record stating that the
corner was marked by a cedar post, of which no trace was found in the field. Their record states
that there is a yellow tag on a 12" Cedar Due East 5'. I suspect that the record Cedar is the same
tree as aforementioned but there is no tag present. The bearing and distance to this tree suggests
that the MEAD position was about 3 ft. south of the position monumented. Since the MEAD corner does
not purport to be a perpetuation of the original position and it does not appear to have been relied
upon to any great extent, and further does not conform to the right angle blazing on the Cedar tree,
which appears to have been intended as a marking that points toward the corner, I concluded that the
position monumented was a reasonable and satisfactory reestablishment of the position of the corner.

C. Description of monument for corner and accessories established to perpetuate locating the position of the corner:

(I12) Set 1"IDx28" I.pipe with 2" alum. MDNR cap.
Set measuring nail with MDNR tag in the side of:
13" Cedar N49°E 21.7' mrkd "1/4S NBT"
14" Cedar S60°E 6.15' w/old blazes do
7" Hemlock S39°W 6.25' do
5" Balsam N87°W 25.7' do
Set sq'd cedar post adjacent.
E= 7868972.594 N= 241731.063

Bearings are magnetic. Coordinates are MCS83 in meters, NAD83(2011) Epoch 2010.00 datum.
Coord. Ref.=NGS PID D08499: N= 221257.624 m. E= 7884435.169 m.
