I, Stephan J. Szyszkoski, in a field survey on 10/05/15 do hereby state
that under requirements of P.A. 74, Michigan P.A. of 1970, the corner points mentioned in lines 1 and 2
above were in conformance with regulations and rules therefore as required in the current manual of survey
instructions of the United States Department of the Interior, Bureau of Land Management or by a decree of
a Court of Law and /or that the corner points mentioned in lines 3, 4 and 5 above were in conformance with
the rules of the Michigan Board of Land Surveyors or by a Decree of a Court of Law; established,
re-established, monumented, recovered, found as expressed below:

NOTE: Not more than 2 corners, all in the same town and range, may be recorded
on this certificate.

A. Description of original monument and accessories and/or subsequent restoration:

(M13) Cor. to Twps. 53N-52N and 35W-34W. 1845-W.A.Burt, Deputy, set post. Sugar 12" S82°W 30
links, Sugar 20" N49°E 27 links. Notes of P.A.&M.C. Larsen while cruising timber: "1920 - Set post
from roots of B.T.s & put stones at base. 1948-Found 1" I.P. & cedar post". 1966-B.D.Buckler RLS:
This corner replaced as located by M.C. Larsen, Hancock, Mich. No original evidence remains.
Corner lies in line with a good logging road to West. 1-1/4"x30" Iron Pipe. 22" Hemlock S84°E
8.9', 9" Soft Maple S04°E 27.0'. 2001 L4-P217 - S.C.Hein, PS, remonumented the corner position at
record distance and angle from Fesing's 1920 notes [Fesing had traversed around and subdivided
Section 31 T53N-R34W]. Set 3/4" capped pipe. 8" R.Maple N39°E 43.93', 20" Maple Snag S23°E 19.92',
8" R.Maple S59°W 51.24', 9" R.Maple N54°W 61.29', 1-1/4" pipe S27°27'03"E 16.36'.

B. Description of corner evidence found and/or method applied in restoring or reestablishing corner:

(M13) Found a 1-1/4" iron pipe (with 3/4" I.pipe adjacent) in the bank on the south side of a logging
road, roughly at the PC of a curve to the right, concave SW'ly. This pipe is that noted in the L4-
P217 LCRC. The top of the pipe has been bent but the underground portion is straight and plumb.
The 1966 NBT Maple S04°E 27.0', now a cut and rotted stump, is at record bearing and distance. The
1966 Hemlock is not present and would have been destroyed by road construction. 1/4 corner M12,
monumented in 1966 by Buckler midway between section corners, falls 1.57' west and 0.98' north of
the midpoint between M11 and this pipe. I accept the pipe as the best available evidence of the
position of the original corner. I examined the Fesing notes of the survey of Section 31 T53N-R34W
and I concluded that they contain an error because I could find no interpretation of them which
would yield a mathematically closed figure around the perimeter of the section.

C. Description of monument for corner and accessories established to perpetuate locating the position of the corner:

(M13) Found 1-1/4" I.pipe, replaced with 1"IDx28"
I.pipe with 2" alum. MDNR cap. Set measuring nail
with MDNR tag in the side of:
3" Oak N36°E 42.9' mrkd "S31 NBT"
3" Hemlock S20°W 2.85' w/ loc. tag "S1 NBT"
10" Oak S34°W 13.95' do
8" Y.Birch N01°W 59.7' "S36 NBT"
Set sq'd cedar post adjacent.
E= 7872177.865 N= 240916.768.

Bearings are magnetic. Coordinates are MCS83 in meters, NAD83(2011) Epoch 2010.00 datum.
Coord. Ref.=NGS PID D08499: N= 221257.624 m. E= 7884435.169 m.
