## Part B: Surveyor's Report on Perpetuation or Monumentation of Corner(s)

F4 - C 1/4 corner Sec. 9, T13N, R2W

Based on retracement of Gibbs survey, dug 4' N-S  $\times$  7' $\pm$  E-W area searching for evidence of wood stake. Found Base of old 6" cedar fence post – the rotted off post had fence wire around. Old down E-W fence in this area. Did not feel this was conclusive evidence of Gibbs position. Thus set 2" Aluminum Cap on 5/8"  $\times$  34" long iron rebar by single proportion between 'E4' and 'G4' to Gibbs dimensions. Measured Grid distance of 2650.65' (2647.92' – FTG) to 'E4' and 2645.37' (2642.64' – FTG) to 'G4'. The 6" post bottom was N67°W 2.8' away. Corner falls in remains of down E-W woven wire fence. New E-W electric fence is 2.3' south. 2" Alum. Cap accepted as the best available evidence of the position of the corner.

#### Part C: Field Evidence of Perpetuation or Monumentation of Corner(s)
