I, Stephan J. Szyszkoski, in a field survey on August 29, 1994, 19_____, do hereby certify that under requirements of P.A. 74, Michigan P.A. of 1970, the corner points mentioned in lines 1 and 2 above were in conformance with regulations and rules therefore as required in the current manual of survey instructions of the United States Department of the Interior, Bureau of Land Management or by a decree of a Court of Law and/or that the corner points mentioned in lines 3, 4 and 5 above were in conformance with the rules of the Michigan Board of Land Surveyors or by a Decree of a Court of Law, established, re-established, monumented, re-monumented, recovered, found as expressed below:

NOTE: Not more than 4 corners, all in the same town and range, may be recorded on this certificate.

A. Description of original monument and accessories and/or subsequent restoration:

(7-Sec. 23) North 1/16 corner between Sections 23-24. Corner not established in the original survey. Corner recorded by Keith L. Sackett in 1977 as follows: "Established on line between section corner north and 1/4 corner south. Set 1" I.D.x5 foot long iron pipe. 4" Maple N05E 16.4', 5" Maple S60W 24.7', 7" Aspen S26E 12.2'. Found no subsequent record.

(4-Sec. 23) Northwest 1/16 corner, Section 23. Corner not established in the original survey. Found no subsequent record.

B. Description of corner evidence found and/or method applied in restoring or reestablishing corner:

(7-Sec. 23) Recovered the 1977, as described, at record bearing and distance from the 1977 accessories. Determined that the 1/4 corner between Sections 23-24, also placed in 1977 by Keith Sackett, is at an erroneous location. This 1/16 corner, being found at the location described in the 1977 record, is, therefore, also at an erroneous location. Established the corner midway and on a straight line between monumented Section corner 1311.68' north and 1/4 corner re-monumented this date 1311.68' south. At the position for the corner, I placed a 1" I.D.x32" iron pipe capped with a 4" dia. cast aluminum MDNR tablet, appropriately stamped. From the corner established, I find the 1977 pipe, which projects about 3 feet, to be N56E 6.76' distant.

(4-Sec. 23) Found no evidence of monumentation at the corner position. Established the corner at the intersection of straight lines connecting opposite 1/16 corners, corners west and south being monumented and recorded. The 1/16 corner to the north has been monumented and recorded but has been destroyed. The 1/16 corner east is unmonumented. The unmonumented 1/16's were computed as being midway and on a straight line between adjacent section/quarter corners. At the position for the corner, I placed a 1" I.D.x32" iron pipe capped with a 4" cast aluminum MDNR tablet, appropriately stamped.

C. Description of monument for corner and accessories established to perpetuate locating the position of the corner:

(7) Set 1" pipe with 4" MDNR cap Blazed and scribed the following bearing trees:	(4) Set 1" iron pipe with 4" MDNR cap. Blazed and scribed the following bearing trees:
7" Maple S62W 17.9' arkd in 1977	4" Maple N36E 33.8' "1/16S BT"
5" Maple N21E 21.4' arkd in 1977	5" Maple N70E 20.2' "1/16S BT"
8" Aspen S56E 12.8' arkd in 1977	5" Ash S26E 3.1' "1/16S BT"
7" Maple West 10.7' "1/16S BT"	6" Maple S20E 36.6' "1/16S BT"
5" Maple S12E 32.6' "1/16S BT"	center of pavement, Norwich road, is
Bearings are magnetic. The 1977 blazes are overgrown, but scribing is visible.	West, 32.0'. Bearings are magnetic.
	Set a 4" squared maple post adjacent.

Signed by Stephan J. Szyszkoski Date 10-5-94
