**B. Description of corner evidence found and/or method applied in restoring or re-establishing corner:**

Found 1" Pipe as referenced in No. 2 and No. 3 above. Found large rock (18" more or less in dia.) as referenced in No. 4 and No. 5 above. Offset and removed 1" Pipe. Found 1/2" pipe, 4 foot long at West side of pipe. Found 1/2" rerod on East side of 2" pipe removed all. Removed rock, and found no evidence under it. Excavated for Harrison Marker and found rotted wood post 20" below surface. Could not remove the wood post as it probably the remains of an old anchor post. Installed the Harrison Marker over the post at the position of the 1" Pipe. I accepted this location as the original corner position based on the best available evidence.

**C. Description of monument for corner and accessories to perpetuate locating the position of the corner**

Installed a standard Shiawassee County Harrison Marker, stamped "Remon 24622" at the location described above. The marker is witnessed by the following accessories:
