DESCRIPTION IN DETAIL AS TO HOW CORNER WAS LOCATED AND IDENTIFIED OR RESTORED.

Monument placed midway between fence corners of parallel E & W fences on N & S sides of an old E & W road that appears to have been intended to be on the E & W quarter-line of Sec. 1. From this point northerly to an original corner on the north township boundary is 40.70 chains, as compared to 40.79 chains original record measurement. The undersigned believes the road and fence corners, together with the measurement cited above, are the most conclusive available evidence as to the subject corner's original location. Found no evidence of original post or its accessories or of any replacement monument or accessories.
