I, Stephan J. Szyszkoski, in a field survey on 14 03/18/13
9 03/19/13 do hereby state
that under requirements of P.A. 74, Michigan P.A. of 1970, the corner points mentioned in lines 1 and 2
above were in conformance with regulations and rules therefore as required in the current manual of survey
instructions of the United States Department of the Interior, Bureau of Land Management or by a decree of
a Court of Law and /or that the corner points mentioned in lines 3, 4 and 5 above were in conformance with
the rules of the Michigan Board of Land Surveyors or by a Decree of a Court of Law; established,
re-established, monumented, recovered, found as expressed below:

NOTE: Not more than 2 corners, all in the same town and range, may be recorded
on this certificate.

A. Description of original monument and accessories and/or subsequent restoration:

(14-Sec. 12) South 1/16 corner between Sec. 12 T43N-R32W and Sec. 7 T43N-R31W. 1943 - Holland,
Ackerman & Holland plan G-154-GG for Wisconsin Michigan Power Company shows corner monumented with
"pipe marker". 3" Maple S15°E 9.0', 5" Basswood N85°W 20.2', 3" Maple N05°E 13.0'.

(9-Sec. 12) East 1/16 corner, Section 12. 1943 - Holland, Ackerman & Holland plan G-154-GG for
Wisconsin Michigan Power Company shows corner monumented with "pipe marker". 8" Birch S54°W 5.9',
4" Ash N20°W 13.5', 6" Birch S25°E 3.8'.

B. Description of corner evidence found and/or method applied in restoring or reestablishing corner:

(14-Sec. 12) Established the position for the corner midway and on the Range line between Section
corner 1334.85' south and Quarter corner 1334.85' north. From the position thus established I found
a Wisconsin-Michigan Power Company monument N03°E 6.7' distant, which I did not accept as marking
the position for the corner. Removed the WMPCO monument.

(9-Sec. 12) Established the position for the corner midway and on a straight line between Center of
Section 12 1319.85' west and Quarter corner 1319.85' east. The WMPCO monument noted on the 1943
plan was not recovered. It may be too far removed from the proper corner position, judging by the
mislocation observed at L4, to be easily discovered. Wherever it may be someday found, I do not
accept it as marking the position for the corner.

C. Description of monument for corner and accessories established to perpetuate locating the position of the corner:
