K-12: W 1/4 Cor. Sec. 36 Marion Twp. Liv. Co. MI

Found 3/4"x30" iron rod set by P.L. Benton in 1981. Earliest known witness is 1877 by M.W. Bullock which is gone. In a 1954 survey by L.W. Munsell the 1/4 Corner was established in an existing East-West fence line and on the extended center-line of Pinckney Rd. from the South and he measured West along the fence 158.5' to the old center-line of Pinckney Rd. In 1961 and during the survey of the Pinckney Rd. reconstruction the same measure existed. In 1969 C.E. Garlock measured 145.18' to the new center-line of Pinckney Rd. as it was relocated Easterly and measured the same now. A measure South by Boss Engineering in 1990 of 2639.60' to the SW Corner of Sec. 35 was the same I had in 1969. Witnesses by P.L. Benton and Boss Engineering are to the same point. The iron is located on the side slope of a bank sloping south and in a hedge-row East-West.
