I, Joseph C. Domitrovich, in a field survey on July 6, 2000, do hereby state that under requirements of P.A. 74, Michigan P.A. of 1970, the corner points mentioned in lines 1 and 2 above were in conformance with regulations and rules therefore as required in the current manual of survey instructions of the United States Department of the Interior, Bureau of Land Management or by a decree of a Court of Law and/or that the corner points mentioned in lines 3, 4 and 5 above were in conformance with the rules of the Michigan Board of Land Surveyors or by a Decree of a Court of Law; established, re-established, monumented, recovered, found as expressed below:

NOTE: Not more than 2 corners, all in the same town and range, may be recorded on this certificate.

A. Description of original monument and accessories and/or subsequent restoration:

(L - 7) 1/4 Corner Common to Sections 13 & 24, T52N, R39W.

1845 - William A. Burt set a Hemlock post with ties:

10" Sugar	N 27°E	27 links
6" Hemlock	N 55°W	23 links

I found no record of subsequent restoration.

B. Description of corner evidence found and/or method applied in restoring or reestablishing corner:

I found no remains of the original corner. There is a 3" diameter driveshaft with a ring welded to it that the local landowners have used to mark lines for logging. It falls 204' West of a single prorated position. I did not accept the drive shaft and restored corner position by single proportionate measurement. This position works well with GLO distances to Section Corners to the East and West, and with stream call to the West.

Research on file with County Remonumentation Representative.
