DESCRIPTION IN DETAIL AS TO HOW CORNER WAS LOCATED AND IDENTIFIED OR
RESTORED.

This corner was located by Forestry Division survey crew. Found possible stake evidence at position for government corner. Probable SW government BT in place, and a hole and roots for Teed's witness N2 1/2 E 46 1/2. Places corner 5 links north of point for proportionate corner, but considered possible CBT's as better evidence in this case. Teed's record measurement making the W 1/2 mile 12 links longer than E 1/2 mile probably due to the fact that the west 1/2 is much more rolling than the east 1/2 mile. Places corner in E-W partially constructed township road grade.

Corner placed and witnessed April 23, 1958.
