alleys in the area bounded by Dubois, Chene, Gratiot and Wilkins. Petition No. 267 of "Comerica, Inc." requests the conversion of Brewster Street, 50 feet wide, and the adjoining public alleys, 16 and 20 feet wide, in the area bounded by Dubois and Chene Streets, Gratiot and Wilkins Avenues into an easement for public utilities.

Comerica plans to develop parking area for a new bank branch. Also, the petitioner has reached written agreement with "Peoples Restaurant Equipment Company" and "A's Loan Office", the other adjoining property owners at 2209 and 2309 Gratiot (respectively).

The Community and Economic Development Department has submitted a report (dated June 11, 1990) to your Honorable Body recommending the public street and alley closings. The petition was referred to the City Engineering Department for investigation (utility clearances) and report. This is our report.

The Fire Department will require the relocation of an existing hydrant from (to be converted) Brewster Street. At the time of application for a building permit, the Fire Marshal will determine the location for the new hydrant. However, if the hydrant is relocated to Gratiot Avenue, a State trunkline, permits will have to be obtained from the Michigan Department of Transportation. The petitioner must pay all expenses for the hydrant relocation work.

Further, the City owns a portion of the north-south public alley, 16 feet wide, in the block bounded by Dubois Street, Gratiot Avenue, and Brewster Street (outlet into Brewster) in fee. Therefore, the Finance Director must execute a quit-claim deed to convey a part of the converted public right-of-way to the petitioner.

Satisfactory agreement has been reached with Barden Cablevision regarding their installations therein. All other City departments and privately-owned utility companies have reported no objections to the conversion of public rights-of-way into a utility easement. Provisions protecting utility installations are part of the resolution.

The adoption of the attached resolution is recommended.

Respectfully submitted,  
CLYDE R. HOPKINS  
Director
