Honorable City Council:
Re: Central Industrial Park Project
Dedication of Land for Street Purposes, Naming of Streets - Petition No. 1472.

The development plan for the Central Industrial Park provides for the re-routing of vehicular traffic around the periphery of the site on new or widened surface streets. The new or widened streets either have been constructed or are presently being built.

These new or widened roads also provide public access to surplus parcels of land lying on the opposite side of the streets to the principal site which is being developed by General Motors Corporation.

The dedication of these rights-of-way also meets the requirements of the Circuit Court for the public access to the principal site prior to the vacation of the subdivision plats within the area. The petition of the Circuit Court and the vacation of the streets and alleys within the principal site was authorized and adopted by Your Honorable Body on April 15, 1981, J.C.C. pages 806-811.

In addition to the dedication of land for these streets, the attached resolution provides for their naming in conformance with the recommendation of the Community and Economic Development Department recommendations which were submitted to your Honorable Body by letter of January 18, 1983.

The resolution also stipulates the vacation of a small portion of Harper Avenue westerly of Mt. Elliott, which area is not needed for the street realignment.

The following resolution is submitted for review and consideration by Your Honorable Body.

Respectfully submitted,
LOUIS W. KLEI
City Engineer

Whereas, The City of Detroit, by and through its Economic Development Corporation, is undertaking the development of the Central Industrial Park Project, and

Whereas, in order to carry out the development plan of this project, it was necessary to vacate numerous street and alleys within the development area, which was done by action of Your Honorable Body on April 15, 1981, J.C.C. pgs. 806-811, and

Whereas, in order to maintain vehicular traffic around the project and adequate access to the developed site and surplus parcels adjacent thereto, it is necessary to relocate, widen or otherwise alter certain of the remaining streets around the periphery of the project or construct new streets and

Whereas, The land necessary for these purposes was acquired within the project, therefore be it
