

The Village of Micklesville lies on and occupies a part of the south east of the west half of the south east quarter of section twenty nine of town nine north range 3 east.

The median line between sections twenty nine and thirty two in the center of Parshall street and the point in the creek near the eastern extremity of the street represent the meander Post. All the east and west lines of lot (except such as make the south line of Parshall street) are parallel to pine street.

Lines running easterly and westerly cross the line of Parshall street are at right angles with street and line running northerly and southerly. Figure in street denote the width of the street in feet. Figure on the line of lot denote the length of the lines in ft. Parshall street bears $N 87^{\circ} 10' E.$ and $S 87^{\circ} 10' W.$ Mickles street bears $N 10^{\circ} 10' E.$ and $S 10^{\circ} 10' W.$

From the meander Post in Parshall street it is 50 ft westerly and 33 ft northerly to the south east corner of Block 11.

Surveyed and map made for Philip Mickles in
October A.D. 1857
By Andrew Huggins Surveyor.

State of Michigan } On the 22nd day of Oct. A.D. 1857. personally appeared
Saginaw County } before me a justice of the peace of said County Philip
Mickles who declared that he caused and survey and map to be made
