We will build a track and lane through the park of the land on which Mammoth Beach is located. We declare that where we caused the same to be surveyed and plotted, that the width in such place is correct, and that we declare to the public use forever the streets and alleys in *proportion*

Eleanor Young.

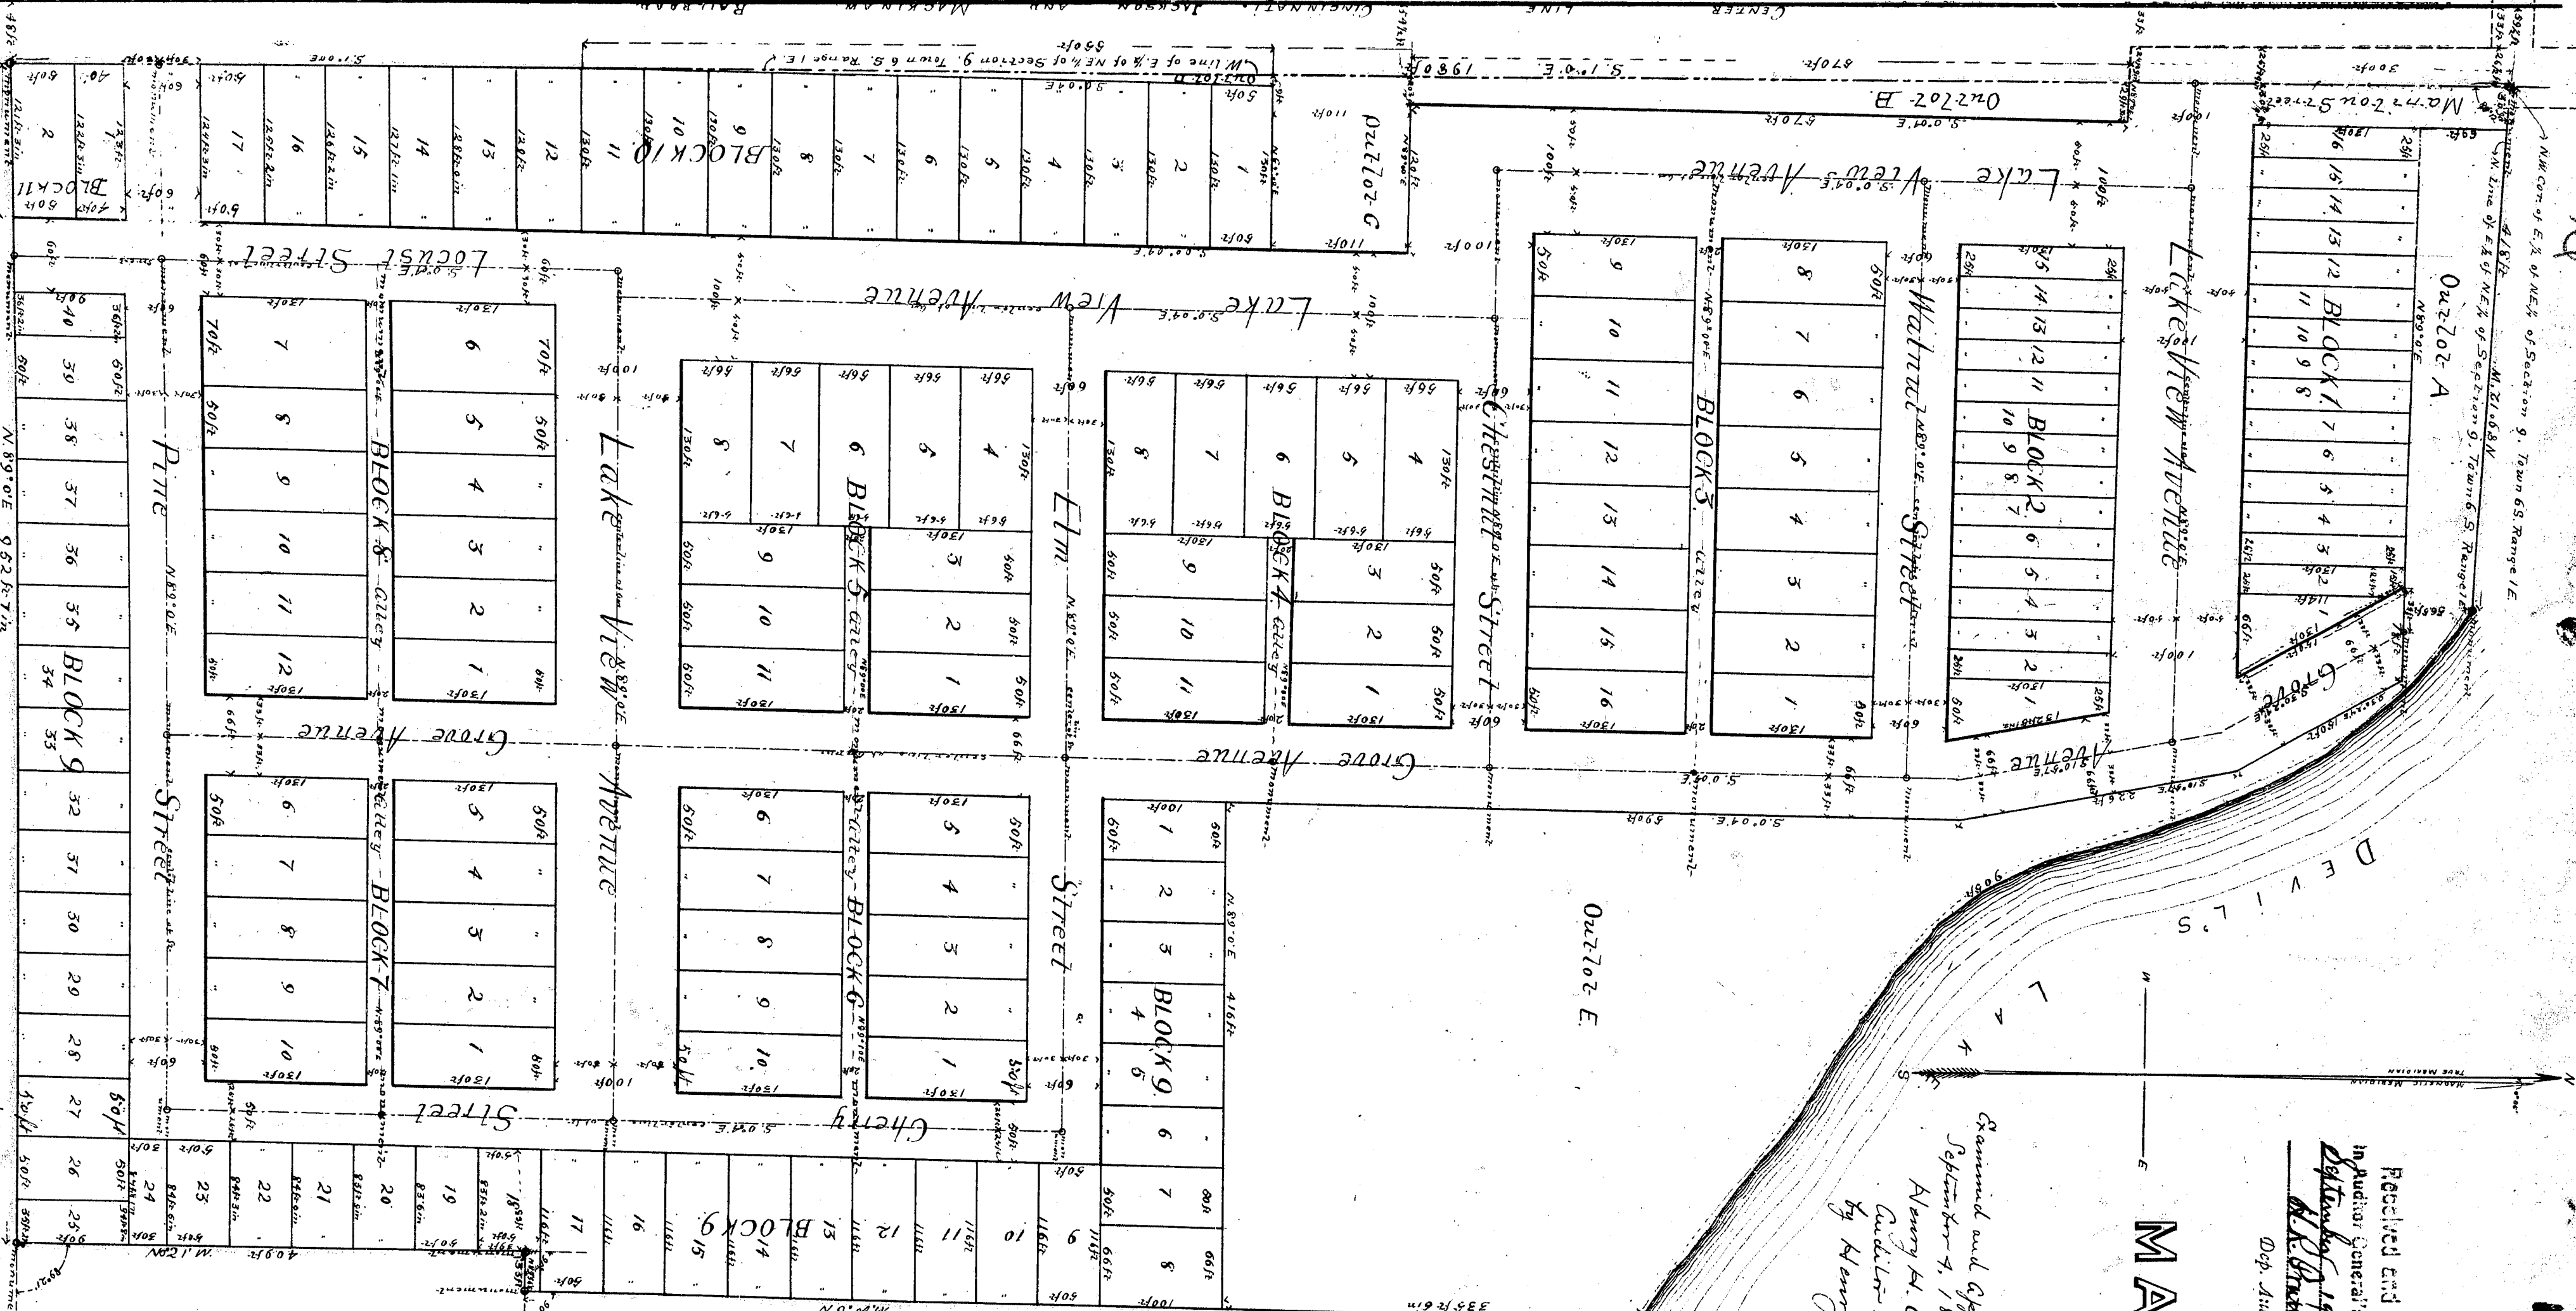

5 feet of this is usually 35'. Presumably sedimentary type in the
S. 7000 ft. and below S. 7000 ft. is not in the same way. Some
of the famous mts. around the middle part and in the
acknowledged the position of the S. 7000 ft. and the first
and second. The first very hard over the first and the
S. 7000 ft. and the first. CO 5. The first.
