COUNTY REPRESENTATIVE

In 1978, Gary L. Pisoni, RLS, found an iron pipe located in the centerline of Kofmehl Road which runs East and West marking the corner position.

B. Description of corner evidence found and/or method applied in restoring or reestablishing corner:

No evidence of original B.T.s found.

Iron pipe has been used for many surveys in the surrounding area. In recent years, a new layer of asphalt has been laid over the top of the existing pipe. Set a P.K. nail over the top of existing pipe. I accept the pipe as the best available evidence for restoring the corner position.

Corner record research on file with County Representative.

C. Description of monument for corner and accessories established to perpetuate locating the position of the corner:

Set one (1) reference monument, being a 5/8" diameter by 30" long rebar pin with a 3" diameter aluminum cap stamped as follows: Iron County Remonumentation, T43N, R35W, R34W, R.M., S-25, S-30, S-36, S-31, South, 30.11 feet, 1999, RLS 27457 from which I established the following new blazed and scribed bearing trees: (All measurements taken to a nail in side of tree)
