SUMMARY K-6

West 1/4 Corner, Section 13, T1N-R5E, Hamburg Township, Livingston County, Michigan

CORNER EVIDENCE

Original survey notes record 40 chains, (1/2 mile in lake). This corner is in Wolfe Lake.

DISTANCES

(See page 6) -

The distance between approved Corners K-7 and K-5 is 5282.78 feet. The original GLO Corner would have been placed at the midpoint of this straight line, this calculated point would place K-6 at 2641.39 from corners K-7 and K-5.

This calculated Section Corner would be 0.7 feet West if the monumented, Section Line, per Boss Mortgage Report (page 12) and plat of "Knollwood Hills Condo" (page 14) where extended Southerly.

This calculated Section Corner would be 7 feet East if the monumented Section Line as shown on the Progressive survey (page 15) and plat of "Solitude Pointe" (page 16) where extended Northerly. This calculated Section Corner would be 16 feet North if the monumented, East- West 1/4 Line, per plat of "Amended Ore Lake Shores" (page 13) and "Huron Country Club (page 10) where extended Westerly.

RECOMMENDATIONS

We recommend establishing K-6 at the midpoint between K-5 and K-7.

We recommend setting TWO reference monuments: (see page 6)

- 1) A reference monument East of K-6 on straight line with the established 1/8 Corner in Centerline Hamburg Road, on the high ground at the edge of the marsh 370.00 feet West of the 1/8 Corner.
- 2) A reference monument South of K-6 at the intersection of North line of Unit 47 of "Solitude Pointe" site condominium and the West line of Section 13 (see page 16 of this dossier).
