I, Stephan J. Szyszkoski, in a field survey on 09/23/14 do hereby state
that under requirements of P.A. 74, Michigan P.A. of 1970, the corner points mentioned in lines 1 and 2
above were in conformance with regulations and rules therefore as required in the current manual of survey

a Court of Law and /or that the corner points mentioned in lines 3, 4 and 5 above were in conformance with
the rules of the Michigan Board of Land Surveyors or by a Decree of a Court of Law; established,
re-established, monumented, recovered, found as expressed below:

NOTE: Not more than 2 corners, all in the same town and range, may be recorded
on this certificate.

A. Description of original monument and accessories and/or subsequent restoration:

(G8) Quarter corner common to Sections 21 & 22. 1848 - Established by Wells Burt, Deputy, midway
and on the Section line between Section corners 40.00 chains north and south. Set cedar post.
Sugar 12" S64°E 31 links, Fir 9" N45°W 22 links. Found no subsequent record.

(12-Sec. 26) Center-South 1/16 corner, Sec. 26. Not established in the original survey. 2008 -
Established and monumented by Robert Spear PS in conformance with the regulations and rules noted in
the certificate, above, applicable to the subdivision of regular sections.

B. Description of corner evidence found and/or method applied in restoring or reestablishing corner:

(G8) The original post and accessories were not recovered. Found no evidence of the position of the
original corner on the ground. Reestablished the position for the corner midway and on the Section
line between Section corners 2636.62' north and south. The position falls at record distance south
of a stream noted in the 1848 US notes as "Stream 20 c.N.W." 19.6 chains north of the corner.

(12-Sec. 26) Found a 5/8" rebar with plastic cap "R.Spear PS43069", projecting 3", set firm and in
good condition. The position of the monument conforms with a proper subdivision of this section
based upon currently unmonumented J9 and I10 being located midway and on line between respective
section corners and the position of corner I9 being that of a 1/2" iron with 1-3/8" flat top noted
on an LCRC for I9 recorded by the undersigned, this date. Accepted the monument at this 1/16 corner
as a careful and faithful determination of the position of the corner.
