I, Stephan J. Szyszkoski, in a field survey on 06/08/15 do hereby state
that under requirements of P.A. 74, Michigan P.A. of 1970, the corner points mentioned in lines 1 and 2
above were in conformance with regulations and rules therefore as required in the current manual of survey
instructions of the United States Department of the Interior, Bureau of Land Management or by a decree of
a Court of Law and /or that the corner points mentioned in lines 3, 4 and 5 above were in conformance with
the rules of the Michigan Board of Land Surveyors or by a Decree of a Court of Law; established,
re-established, monumented, recovered, found as expressed below:

NOTE: Not more than 2 corners, all in the same town and range, may be recorded
on this certificate.

A. Description of original monument and accessories and/or subsequent restoration:

(J1) Quarter corner common to Section 2 T48N-R29W and Section 35 T49N-R29W. 1846 - Established by
John Burt, Deputy Surveyor, midway and on the Township line between Section corners 40.00 chains
east and west. The corner position is described in the original notes as "Quarter Section corner in
lake" and was not monumented.

(K1) Corner common to Sections 1-2 T48N-R29W and Sections 35-36 T49N-R29W. 1846 - Established by
John Burt, Deputy Surveyor, who set a Maple post witnessed by Y.Birch 30" N20°E 24 links, Hemlock 6"
N80°W 22 links. 1988 - Larry J. Bussone PS mentions the northeast corner of Section 2 in his
recordations (L 5 of RC, Page 195) of corners I1 and K2, but does not mention monument type nor
dimensions from those corners to K1. Found no subsequent record.

B. Description of corner evidence found and/or method applied in restoring or reestablishing corner:

(J1) Reestablished the position for the corner midway and on the Township line between monumented
Section corners 2646.95' east and west. The corner position falls in Wolf Lake and was not
monumented. Established a Witness Corner on the Township line 1930.95' east of the corner position,
on the east shore of Wolf Lake, 716.00' west of Section corner K1.

(K1) The original post and accessories were not recovered. Found a 1.25" ID iron pipe, set firm,
projecting 33" a.g., with an old Celotex location poster facing it and a blue paint line running N-S
through it. Distances north to K11 and K12 T49N-R29W, both perpetuations of original corners, check
very well with the GLO record. Distance east to 1846 call "47.00 Ledge one chain south of line"
also checks very well. Distance south to K2 is short, which I have found to be not atypical of N-S
lines in the east 1/2 of this township. This position was used in 1988 by L.Bussone to calculate
the subdivision of Section 2 for a 1988 survey rec. in L368 P153. I accept the pipe as the best
available evidence of the position of the original corner.

C. Description of monument for corner and accessories established to perpetuate locating the position of the corner:

(J1) Set 1"IDx28" I.pipe with 2" alum. MDNR cap on
the Township line 1930.95' east of the corner
position for a WITNESS CORNER. Set measuring nail
with MDNR tag in the side of:
15" Tamarack N13°W 57.3' mrkd "WC BT"
14" Tamarack N19°E 64.15' do
6" Maple N85°E 39.25' do
2" Spruce S51°E 35.95' do
Set sq'd cedar post adjacent.
E= 7931834.287 N= 201546.653 (the Wit.Cor.)

(K1) Found 1.25" ID iron pipe.
Set measuring nail with MDNR tag in the side of:
8" Maple N49°W 12.2' mrkd "S35 NBT"
9" Maple S81°E 4.9' "S1 NBT"
4" Maple S07°E 14.8' "S1 NBT"
9" Spruce S41°W 11.75' "S2 NBT"
E= 7932052.483 N= 201545.205

Bearings are magnetic. Coordinates are MCS83 in meters, NAD83(2011) Epoch 2010.00 datum
Coord. Ref.=NGS PID AA8080: N= 192972.689 m. E= 7925456.741 m.
