Apr. 20

94

I, William Lenca, in a field survey on Apr. 20, 1994, do hereby certify that under requirements of P.A. 74, Michigan P.A. of 1970, the corner points mentioned in lines 1 and 2 above were in conformance with regulations and rules therefore as required in the current manual of survey instructions of the United States Department of the Interior, Bureau of Land Management or by a decree of a Court of Law and/or that the corner points mentioned in lines 3, 4 and 5 above were in conformance with the rules of the Michigan Board of Land Surveyors or by a Decree of a Court of Law; established, re-established, monumented, re-monumented, recovered, found as expressed below:

**NOTE: Not more than 4 corners, all in the same town and range, may be recorded on this certificate.**

### A. Description of original monument and accessories and/or subsequent restoration:

- 1848: Original Survey by James H. Mullett - B.T.'s - Tamarack, 4", N33°E, 08 lks & Tamarack, 3", S80°W, 18 lks. All original evidence for this corner has been destroyed by Highway construction.
- 1946: Michigan Highway Department Survey Plans show this corner as referenced to the centerline of Highway M-35 as being 68.65 feet East along the Section Line from station 593+34.45.
- 1974: L.C.R.C. No. 81, recorded by George B. Wilson, RLS No. 17607, states that he found a spike in the centerline of Highway M-35 at station 593+34.45 and set a 4" dia. concrete monument S89°24'33"E, 68.65 feet.
- 1974: Certified Survey No. 32 by George B. Wilson, RLS No. 17607, shows this meander corner as it relates to the 1/4 corner to the West and to other lot corners in the survey.

### B. Description of corner evidence found and/or method applied in restoring or reestablishing corner:

We found a 4 inch diameter round concrete monument from information contained in Certified Survey No. 32. This location matches with the location indicated in the 1946 Highway Department Survey. Our measured distance to the existing monument from the 1/4 corner is 881.25 feet. The GLO distance from the 1/4 corner between Sections 11 & 14, East to the Meander Corner was 17.45 chains (1151.7 feet), which would place the GLO Meander Corner in the Lake. The above mentioned concrete monument has been used as control for the East-West position of the Section Line between Sections 11 & 14, and is accepted as a REFERENCE MONUMENT to the Meander Corner.

### C. Description of monument for corner and accessories established to perpetuate locating the position of the corner:

Set 3-1/4" dia. Alum. cap stamped "REF. MON TO M.C." on existing 4" dia. Concrete Monument:

9" dia. White Ash	N43°E	57.08 feet	Scr. NBT
9" dia. White Ash	S49°W	46.53 feet	Scr. NBT
8" dia. Cedar	N70°W	154.79 feet	Scr. NBT
8" dia. White Ash	N21°W	156.85 feet	Scr. NBT
Survey Sign Post	S90°E	1.2 feet	

**NOTE: All bearings are magnetic bearings. All distances are measured with EDM tape. Distances to trees are to nail in side of tree.**

Signed by William Lenca
