... 10" Maple ... S 24 E ... 52 1/2 links ..

DESCRIPTION IN DETAIL AS TO HOW CORNER WAS LOCATED AND IDENTIFIED OR  
RESTORED.

This corner was established by Forestry Division survey crew while making a survey in this area. Set corner from possible SW government Hemlock which is only one nearby, and a large hole NE for possible NE Beech. This position is only 2 links east of proportionate position in longitude and makes the mile north the usual 9 links short. Distance south to a monument by Scott Engineering is somewhat short, but did not believe a north-south proportion which would place this corner some 50 or 60 links north, reflected the calls of the government record.

Corner was placed and witnessed November 13, 1958.
