I, Joseph C. Domitrovich, in a field survey on June 19, 2000, do hereby state that under requirements of P.A. 74, Michigan P.A. of 1970, the corner points mentioned in lines 1 and 2 above were in conformance with regulations and rules therefore as required in the current manual of survey instructions of the United States Department of the Interior, Bureau of Land Management or by a decree of a Court of Law and /or that the corner points mentioned in lines 3, 4 and 5 above were in conformance with the rules of the Michigan Board of Land Surveyors or by a Decree of a Court of Law; established, re-established, monumented, recovered, found as expressed below:

NOTE: Not more than 2 corners, all in the same town and range, may be recorded on this certificate.

A. Description of original monument and accessories and/or subsequent restoration:

(J - 13) South ¼ Corner Section 35, T52N, R39W. * Note - ¼ Corner not common with Section to South.

1845 - William A. Burt set ¼ section post of Sugar with ties:

| | | |
|--------------|--------|----------|
| 14" Sugar | N 22°E | 31 links |
| 14" Y. Birch | N 67°W | 6 links |

I found no record of subsequent restoration.

B. Description of corner evidence found and/or method applied in restoring or reestablishing corner:

At the corner position I recovered the rotted remains of both original bearing trees. The 12" Sugar is now a rotted stump. The 14" Y. Birch is a rotten mound. I re-established the ¼ corner at record GLO from these B.T.s. This position works well with Corners to the East and West and with a painted Blue line to the North. (Blue line also runs south but this ¼ corner is not common with Section to South.

Research on file with County Remonumentation Representative.
