Sec. Cor., Secs. 23, 24,25, 26 T7N-R4E, Venice Township

Found no evidence of original government corner. Found 1" iron pipe with square head bolt inside 0.5' below asphalt pavement. Also found R/R spike in centerline of Lennon Road N05W 5.54 feet from the found iron pipe. This R/R spike is apparently the spike set by CPCo in 1972. The Shiawassee County (S.C.) Drain record notes that this R/R spike is not the same corner as used by J. Quine and O.M. Elliot in previous surveys of record. Measured East to L-9, 2626.82' (1965 rec. 2627.4'), measured South to K-10, 2639.55', 1972 surveys above measured 2645.0' and 2645.15' from the R/R spike. It appears that the R/R spike was set by improper procedures and is not used in the course of this survey. Accepted the found 1" iron pipe with square head bolt as the best available evidence of the position of the original government corner. Found pipe with square head bolt to be a 1" boat spike during excavation for mon. box.

Description of monument for corner and accessories established to perpetuate locating the position of the corner: C. Std. Sec. Cor., Secs. 23, 24,25, 26, T7N-R4E, Venice Township

Set a standard 20" Harrison monument and monument box at the position approved by the Shiawassee County Peer review Group.
